At the school...

In 1997 the school's layout was revised to make the roof of the school more open, allowing for better ventilation. New windows were installed in the classrooms, and the playground was expanded to include more outdoor space for students. The school's facilities were also improved to accommodate the growing number of students.

The school's new roof was completed in 1997, providing better drainage and reducing the risk of water damage. The new windows allowed for more natural light in the classrooms, improving the learning environment. The playground was extended to include a new gymnasium, a soccer field, and a football field.

In 1999, the school's library was updated with new books and resources, improving the learning experience for students. The school also introduced new technology to support learning, including computer labs and interactive whiteboards.

Over the years, the school has continued to adapt to the needs of its students, with ongoing improvements and upgrades to its facilities. Today, the school is a vibrant community hub, providing a safe and supportive environment for students of all ages.
